## Subject Index

- AAS 271
- absorption correction 245
- acceptor 25
- acid-base equilibria 181
- adsorption 159
- amines 221
- 2-aminodiphenylamine 337
- amodiaquine 321
- ampicillin-Cu(II) complex 191
- analgesic 237
- anion exchangers 137
- anti-inflammatory agent 237
- antimony 349
- atomic absorption spectrometry  
137, 171, 229, 263, 271
- backscattering factor 245
- berberine 159
- bromine 407
- cadmium determination 313
- canadine 159
- capillary gas chromatography 1
- cathodic stripping voltammetry 97
- cephalosporins 17
- chemical homogeneity of solids  
145
- chemically modified electrode 97
- chlorobiphenyls 1
- chloroquine 321
- chromium(VI) 393
- cobalt-copper and cobalt-nickel  
simultaneous determination 303
- competitive binding assays 65
- composition 191
- condensed film 159
- conductivity 25
- copper complex 51
- copper determination 213, 263
- coulometry 407
- daughter minerals 31
- depth profiling 197
- depth resolution 197
- determination 221, 237
- determination of arsenic 229
- determination of trace thorium 97
- 3,5-dibromo-PADAP 349
- 2,3-dichloro-5,6-dicyano-  
1,4-benzoquinone 355
- differential kinetic 303
- differential polarography 51
- differential pulse cathodic strip-  
ping voltammetry 113
- differential pulse voltammetry 97
- dinaphthol 281
- dissociation constants 75
- donor 25
- dosage forms 321
- electron probe microanalysis 31
- electrothermal atomization 171
- emulsifier OP 349
- environmental samples 393
- enzyme electrode 9
- enzyme-vitamin conjugates 65
- ETA-AAS 171
- fiber-optic sensor 41
- first-derivative spectrophotometry  
313
- fish 1
- flameless AAS 121
- flow injection 9
- fluid inclusions 31
- fluorescence 365
- fluorescence quenching 41

- fluorescence sensor 41  
fluorimetry 393
- gallium arsenide 121  
GDOS-analysis 197  
glucose determination 9
- haematoxylin 387  
HG-AAS 229  
hydride generation 229, 271  
hydrofluoric acid 229  
hydrogen peroxide sensor 41  
*o*-hydroxybenzenediazoaminoazo-  
benzene 313
- immobilized reagents 293  
inductively-coupled plasma atomic  
emission spectrometry 57  
infrared spectroscopy of poly-  
morphs 81, 373  
iodine 407  
ion-selective electrode 281  
iridium 137
- kinetic analysis 181  
kinetics of reaction 337
- laser fluorimeter 365  
lead 271
- macrocyclic polyether 281  
manganese determination 113  
matrix evaporation 121  
matrix separation 137  
MBTH 237  
micelle solubilization spectropho-  
tometry 349  
microcrystalline naphthalene 213  
microprobe analysis 245  
midazolam 181  
modified electrode 9  
 $\text{MoO}_4^{2-}$  complex 329
- naphthalene column collection 263  
natural waters analysis 113  
nephelometric determination 403  
nitrided layers 197
- optical fibre 293  
optical sensor 41  
organophosphorus compounds  
387  
oxidation 403  
oxidation-reduction equilibrium  
293  
oxidized haematoxylin 17  
oxygen-flask combustion 387
- palladium 137  
PCBs 1  
penicillins 17  
pharmaceuticals 181  
phenothiazines 355  
1-phenyl-4,4,6-trimethyl(1H,4H)-  
pyrimidine-2-thiol 213  
platinum(IV) complex 129  
polarography 191  
polymorphism 81, 373  
potassium permanganate 403  
primaquine 321  
primary amine drug 281  
prochlorperazine 129  
2-( $\alpha$ -pyridyl)-thioquinaldinamide  
393
- quartz 31
- reduction potential 293  
reflectometry 293  
reflux nebulizer 57  
ring test 1  
rutin 75
- saliva 171  
selenium 337  
separation 213  
silver/sulfide electrode 221  
single-point method 303  
sludge 1  
solid-state analysis 145  
spectrophotometric titration 355  
spectrophotometry 17, 129, 181,  
213, 237, 313, 337  
stability constant 191  
statistics of stochastic processes  
145

steel 197  
steels 393

tetracyanoethylene 321  
tetracycline 329  
thermal analysis 81, 373  
thin surface films 245  
thiols 407  
thionic compounds 403  
titrimetry 387  
trace analysis 121  
trace elements 171  
trace elements analysis 57  
2,4,6-tri(2-pyridyl)-1,3,5-triazine  
263

ultratrace detection 365  
unipolar 25  
uranium 365  
uranium doped sodium metaphos-  
phate phosphor 365  
UV spectrophotometry 75

visible spectrophotometry 75  
vitamin B<sub>12</sub> (cyanocobalamin) 65  
vitamin tablet analyses 65

waste water 313  
wine sample 271  
WO<sub>4</sub><sup>2-</sup> complex 329
